C H Davies	chd100@btconnect.com	United Kingdom	This is just a continuation of the age old racism against Native Americans They were in America before the white man. It is their land, but they have been discriminated against ,and treated in a disgusting manner ever since white man discovered them. My belief is what goes around comes around and one day IT WILL

Rod Barnes	lobodunbar@hotmail.com	United Kingdom	The U.S.A finally has a black President but still treats the Native American as a third world citizen. When will they get their act together and remember this is supposed to be the land of free, the land of equality and stop having one justice for those with authority and one for the Native American.
Christina Maris	cmaris@salud.unm.edu	United States	This is a disgrace - the man was defending himself. Enough of tribal politics - this is someone's LIFE and FREEDOM at stake. Let him go.
Susan Gronwall	gronwall@rocketmail.com	United States	Marc was only protecting his property when he was literally invaded by a "government" man in his truck who did not identify himself. This man physically and mentally threatened Marc who then shot a bullet from his gun into the radiator of the truck to stop what he felt would have been a vehicular attack on himself. Thus, this would be considered an action in self defense! Marc is being harassed for his actions, whereas the "government" man should be the one who takes responsibility for invading Marc's privacy, causing him unfair persecution which led to his wrongful incarceration. Actions such as

			this need national attention, and those who are in the wrong be the ones who take responsibility, ESPECIALLY those representing the government! When will such injustices end? I feel Marc should be released without problems or any repercussions for an action of self defense.
Big T	tpd101@tiscali.co.uk	United Kingdom	Where is the spirituality and truth ... has it changed to guilty until proved innocent..??? This is injustice at its worst. And reaks of one rule for one and a different rules for all others. There is no justice in what has happened here . I hope he bully boys that have instigated this get a taste of their own medicine.

Melissa Challinor	melissachal@aol.com	United Kingdom	I hope for an end to the discrimination, victimisation and appalling treatment of the Lakota and all Native American people. Marc is unfortunately just another example of the injustice that goes on in South Dakota and America in general towards the Lakota people. I hope that good sense will prevail and Marc will soon be released and can get on with his life - my thoughts are with you, Marc.
Lynne Jones	angeldreams20002000@yahoo	United Kingdom	This is yet another clear cut case of discrimination against a Native American - if we know and care about it in the UK, why do white Americans ignore what is under their own noses, or actually assist in the corruption of justice?
Phil Taylor	moonbull@hotmail.co.uk	United Kingdom	I think this should be looked into by the President. I don't care if he was federal government. He had no right trespassing on private land. Also when can a man defend his castle. If anything the trespasser should be prosecuted not Marc Wisecaver. This has got to stop. All this bullying of the Native Americans. They were kicked off there land by the Wasichu. Just how far are they going to go pushing the Natives around. Some of these people join the armed forces to serve their country, and they still get badly treated. President Obama said he would help the Native Americans. So why isn't he keeping to his word. Or is he just going to be like the rest of the American presidents. Always promising, and taking,but never give. I hope this miscarriage of justice gets blown out of court. Peace and harmony.

sharon gifford	sharonbrooklyn50@yahoo.	United States	
Sue King	suzzyq6267@aol.com	United States	This is so unfair!!! The man was defending himself. The Federal man should be in big trouble for trespassing on his property!!! Where is the justice?? The Indians get treated badly and it has to stop. I really wish there was something I could do about it.. There has to be some way to change things for them. I feel badly for Marc and I will pray he gets let out and the case gets dropped and that federal man gets FIRED!!!!!!
Showet Kheetz		United States	Does "private property" only apply to the usurpers of this nation? Where did the "liberty and justice for all" myth vaporize to? Have prominent agencies been reduced to thugs and terrorists? Add this to the list of endless broken treaties & blatant descrimination of the only people to habitate this nation who actually managed its natural resources effectively. You ridicule and imprison the people you should be consulting to turn around the collapse of our ecosystem through greed and land mismanagement. Woe to those who put good for evil and evil for good. They will reap what they sow.
Jayne Sparr	dale.jayne@xtra.co.nz	New Zealand	It's obvious Marc Wisecarver is an innocent man! This is so unfair!!!!
John Stephenson	newcastle, tyne & wear	United Kingdom	Marc was only doing what anybody else would do in them circumstances. We cannot allow this injustice to Marc and others to continue. Marilyn Taylor	marilynwhitestar@hotmail	United Kingdom	I am saddened to hear of such an injustice and the fact that this type of thing goes on all the time in the United States. I pray Mr. Obama's new Interior Department's Secretary will make some major headway toward ceasing at least some of these long standing abuses by the greedy and corrupt politicians. Perhaps some day, the United States of America will truly become, the land of the free and the home of the brave.

Mrs Janet Cooper	J_COOPER8@sky.com	United Kingdom	I have read the details of Marc's case and I feel that this man has been set up in order for certain people to gain possession of his land and that the said people have been assisted by corruption in the local police service. He has been incarcerated unfairly as a jury already acquitted him of the original charges. This is an outrageous injustice!
Tanja Lehmann	zero_g@gmx.de	Germany	I sign this petition because I think that it is a disgrace that native people still face injustice today, in a country that praises freedom so high. But to me this freedom seems to be for certain people only. This has to come to an end! Freedom and justice are for all people equally, no matter what colour, race, origin, religion or whatever they are! That's why I want Marc Wisecarver to be free, and justice to be given for the mistreatment of his rights.
Charlotte McCormack	walela6@yahoo.co.uk	United Kingdom	As far away as England may be it is not far enough to hide the injustice America serves on the Native American people, the first people of America. Why do you allow the BIA to use underhand tactics to bully and abuse the first people of America? The jails are full of native American men and women that don't deserve to be there. Their only crime, is trying to live under impossible laws that allow them to be ill treated, with no hope of escape. I hope to make more people here aware of their treatment. The first people of America have a lot to be proud of, their culture, their language, their

			spiritulism, something the whole world could learn from.

Thelma Moore	tammy10@btconnect.com	United Kingdom	I am wondering why and how the American Goverment and the people of America is getting away with all the injustices against the Lakota and all Natve American Indians. IF it is time for change, then change FROM what TO what? HOW should WHO lead WHOM to do WHAT, and WHEN? These are basic questions only the Lakota can answer. Are the Lakota just victims of their genetics and culture or a beautiful people with a rich heritage and gifts the world urgently needs to witness at this time?

Marilyn	awtry7smith7@aol.com	United States	Its long past time that we in America support the Native American Indian; we have pushed them on to reservations where in the winter many freeze to death - Yes this is 2009. We gave them alcohol in exchange for their help and now being alcoholics we refuse to help them. I traveled the reservations in the southwest this summer and it is a disgrace of the United States. You can help them by writing letters to your Senators and Congressman and by offering financial aid to the various Associations and schools set up for the children by various religious organizations. Dont turn your head.....you are here to enjoy life because of the founders of this great country - The Native American Indian.
Samantha Friend	sjkfriend@yahoo.com	United States	It is shameful that while the jury recognized that force was taken to protect himself from harm; he is still incarcerated because he chose to shoot the radiator of the vehicle being used to threaten his well being! I would think that if his well being and safety were being threatened, it would be understood that it was more than acceptable for him to protect himself by disabling the vehicle. If the man had been on foot and he shot him in the knee or leg in self defense this wouldn't even be an issue!

Diana Davies	ddavies7@yahoo.com	United Kingdom	I am appauled to learn that this kind of injustice is still going on, and towards people who loved and cared for America long before the ancestors of their persecutors lived there. When will this stop? In the 1960s, thee was a clomour for the rights of the Africn Americans, and eventually the government had to respond. So why, over 40 years later are the Native Americans being dealt such a raw deal? In this case, asan American citizen, I believe that we have the right to defend our property. He had posted signs. The man who drove onto his land did not identify himself as a Gov't agent, or as anyone for that matter. He did not state his business, or show a search warrent, or any papers giving him permission to run his pickup areound the land or harrase the landowners horses. By the way, it would have been easier to get out and approach the horses on foot, and he would have gotten a better look at the brands in question. Even when he was picked up, Marc Wisecarver was not informed that he was under arrest, or what the charges against him were.This could be said to amount to illegal entrapment. Also, and property confiscated must be exchanged for a reciept. That also didn't happen.I believe that his rights were infringed upon repeatedly. I seriously hope that all these points will be looked into in great detail, and that all charges will be thrown out. In addition, I would like to hear that a thorough investigation into all the people and departments taking part in this gross negligence and offense will be mounted. This must stop and stop now! Sincerely, Diana Davies ddavies7@yahoo.com

Jaye A. La Vallee	jal1623@hotmail.com	Canada	In Canada we watch with great anticipation for justice to prevail for our Lakota people. The election of Barac Obama shows that the world progresses for the better of all peoples. You have got to see that the Injustice of one person, one human being - Marc Wisecarver - is the injustice of us all. With good conscience how can any you, how can any of us really truly live this truth of peace and justice of this free world. Marc Wisecarver remains in jail and is wrongfully considered a felon, even after all he has done for your freedom - America and the world.... please free him and set justice in balance for all Native Americans for all peoples. I pray you realize our prayers.
Stephen and Ann Davis	flash5346@aol.com	United States	"The Trial" a novel by Franz Kafka set in an authoritarian regime, depicts the plight of an individual held captive by a system of "justice" accountable to no one, existing only to exercise power arbitrarily. In Marc's case, it is apparent yet again that Native Americans cannot depend upon a reasonable or rational dispensation of justice. The so called "crime" of which he has been convicted was an absurdity, as we have expressed in letters we've written to the Attorney General, the President and the Native American Rights fund. The fact that he is being held over in custody is a travesty, more a reflection of a Judge's caprice and ill temper. It is clear that Marc is not a danger to the community. In fact, one could reasonably state that he is less a danger than those who have caused his imprisonment. Under the previous President, we came to expect such miscarriages and blatant disregard for the Rule of Law. We had hoped that a new Administration would restore a sense of balance, due process and sanity to our criminal justice system. Apparently, not everyone in the system got the memo. We will stay on top of this case and do what we can to help Marc win his freedom. In the meantime, it is clear that he has a beautiful family and it is also clear that many people in this country are not afraid to express their displeasure when those in power abuse that privilege.

It is very sad that Lakota people are not given respect they deserve, to be able to exercize their rights without force. I appeal to the relevant justice system to give Marc Wisecarver a fair trial. Your final role is to to bring offenders back to the society. Are you going to bring back peace or hate?
Matt King	wind.runner@live.co.uk	United Kingdom	This is another travesty of USA GOVT justice, and another underhand way for the BIA to get their hands on land given to a Lakota person, so much for the promises made in the 1868 treaty that as long as the sun shines and grass grows this is your land, we in the FONN, and TNAIS support groups hope and pray that Marc receives the justice that is fair, he was only protecting his property and live stock, a right accorded to every USA citizen, of course unless they happen to be Native !! our thoughts and prayers are with you mitakola, Marc
Blass Caterina		Switzerland	How can the American Government talk about bringing Democracy to the world, while they don't talk about their own history and own injustice which is going on since centurys in their country against the

lesley kiberd	lkiberd@yahoo.co.uk	United Kingdom	This is an absolute travesty of justice. It's about time Native Americans received the same treatment as the rest of your country. All men are equal? Obviously not the case!
Karen McGregor		United Kingdom	This is yet another example of the injustices meted out to the Native American Nations. This has to stop. We must learn to respect differences and treat all peoples equally. Good luck and blessings to you Marc. My e-mail address is karen@mcgregor78.fsnet.co.uk.

Rebecca Michele Lord	mosa@rapidnet.com	United States	Marc Wisecarver's sentence is a affront to all ethical standards and a clear violation of his constitutional rights. I believe the Court has sentenced him for reasons other than the assault charges he was convicted of.

Denny Williams	ohoka@blackfoot.net	United States	Sounds close to the proceedings of the Border Protrol case (Ramas & Pappion) A total discrease of justice to american Indians and minorities....Denny Williams N.Cree/Blackfeet
Jean Katus	j44katus@rushmore.com	United States	Marc Wisecarver's case is about a very harsh and cruel sentence, the "crime" for which he should never have even been incarcerated in the first place. He was defending himself and his property, yet was punished for that. From what I understand, the judge, Mr. Battey, who demonstrated huge bias against Native Americans in general in his sentencing hearing, is notorious for meting out unfair sentences to Natives and non-Indians alike. It seemed to me he was using Mr. Wisecarver as a scapegoat for all the violence that occurs on the Pine Ridge Reservtion. Something must be done about this injustice.

What would the judge do if someone were trespassing on his property and attempted to run him over with a car. Judges seem to love to punish people and they exercise no common sense. PLEASE DO THE RIGHT THING AND FREE MARC! Thanks, Janet
Samantha Friend	5619 NW Hutson Rd KCMO	United States	Our prayers are with Marc and his family. What the land surveyor did was unacceptable and the rolling is unbelievable! The thought that a jury could find him not guilty for assault because of self defense but sentence him to 3 years in jail for shooting the truck used to threaten his safety is unimaginable and unexcusable! I pray that his lawyer will be able to have the sentence overturned. To Ms White Face, Please tell Marc that there are people praying for his safe return to his family.
